

# Universal Cable UC2000 D nG ..

## FO Mini-Breakout Cable J-V(ZN)H nG ..

### Application

Mini-Breakout cables (Distribution cables) are used in universal cabling systems. The double fibre cable type has especially been designed for use as FDDI patch cable. Further applications are short distance connections, rising cables or distribution cables (plenum). The Distribution cables with maximum 12 semi loose fibres and aramide strength members have a flame retardant and halogen free outer sheath.

### Cable Construction

#### Core

Semi tight buffer, diameter 0.9 mm

Colour code: red, green, blue, yellow, nature, brown, gray, violet, turquoise, black, orange, pink

#### Strength Members

Longitudinal aramide strength members

#### Outer Sheath

Flame retardant, halogen free outer sheath (FRNC), sheath colour orange for graded index fibres, yellow for single mode fibres.

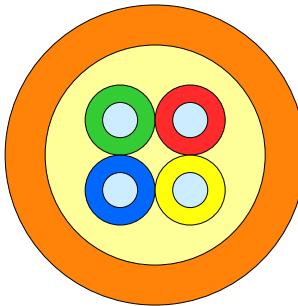

#### Identification

Printing (example):

Inkjet, black,

**DRAKA MULTIMEDIA CABLE UC2000 D 4G 50/125 FRNC**  
and length marking and date of production (WWYY)

### Profile View

### Properties

#### Temperature Range

IEC 60794-1-2 F1

during operation	- 20 °C upto + 70 °C
during laying	- 5 °C upto + 70 °C
during transport/storage	- 25 °C upto + 70 °C

#### Bending Radius

during installation	20 x D
during operation	15 x D

#### Crush

IEC 60794-1-2 E3 1000 N

#### Tensile Force

IEC 60794-1-2 E1 500 - 700 N

#### Flame Resistance

IEC 60332-1 passed
