

### WARRANTY

We are confident in our products and you can be sure of our quality, confirmed by warranty.

### TIER 1 PROVEN COMPONENTS

Quality-verified components from global market leaders are a guarantee of safety and a long service life for the equipment.

### RELIABLE BRAND

Choose FOX, a brand recognised on the Polish market and trusted by more than 100,000 users in Poland!

### LOCAL SUPPORT AND FULL DOCUMENTATION

Full documentation in local language and an experienced team of experts ensure that no one is left without support.

### UNCOMPROMISING QUALITY OF WORKMANSHIP

A high production and quality control regime is our method of ensuring the highest quality equipment with spectacularly low failure rates.

### DC INVERTER, EVI TECHNOLOGY

The DC inverter allows precise modulation of the compressor operation with EVI technology, ensuring smooth operation.

### HIGHEST EFFICIENCY IN ENERGY CLASS A+++

Guarantee of the highest performance with low power consumption at the same time.

### FAST START

Innovative solutions to ensure immediate refrigerant distribution immediately after activation.

### ASA MATERIAL AND ANTI-CORROSION PROTECTION

The robust, weather-resistant housing made of ASA material effectively protects the device against corrosion, for up to 40 years.

### INTUITIVE TOUCHSCREEN DISPLAY

A high-quality multifunctional display with a colour touchscreen allows intuitive control of the heat pump. And all of this in local language.

# 20 ADVANTAGES OF HEAT PUMPS

## FOX AIR

### REMOTE MONITORING/DTU

Central management of the service platform, online updates and remote troubleshooting are cost-saving and convenient for the user.

### MOBILE APPLICATION

Available on a smartphone, the mobile app provides users with convenience by managing the heat pump from anywhere in the world.

### WIDE OPERATING RANGE

The latest technology enables operation over a wide temperature range, without worrying about the impact of ambient conditions on performance and stability.

### LOW NOISE EMISSION

Soundproof insulation combined with shock and vibration absorbing technology guarantees maximum low noise emissions.

### INTELLIGENT DEFROSTING

The intelligent defrost system adapts to external conditions, activating when necessary.

### ECOLOGY AND SAFETY

The environmentally friendly refrigerants R32 and R290 mean increased operational safety and a positive impact on the environment

### BEST VALUE FOR MONEY

We offer the latest technology, with the highest market performance, in a premium class, at a price that is accessible to everyone!

### RELIABLE PARTNERS

We only work with reliable and proven partners.

### MODERN DESIGN

Discover the new quality of heat pumps enclosed in a stylish, robust and screwless housing.

### TROUBLE-FREE CLAIMS PROCESS

Known for its uncompromising service quality, the FOX technical department guarantees the shortest response times and expert assistance.
