_____

Patch cord cutter for IDC LSA (Krone type) connectors, code: FU/FA-389K-LSA

Description and Technical Characteristics of the Product:

The patch cord cutter is an essential tool for terminating LSA-type connectors found in EmiterNet system sockets and panels. The tool additionally has scissors that cut off excess wire (can be locked so that the excess remains intact), an extendible hook for pulling out poorly terminated pairs and also an extendible cable pusher.

Grey plastic enclosure, metal-reinforced impact element.

Technical parameters:

colour - grey

dimensions (L x W) - 185x35

weight - 50g
