Description and Technical Characteristics of the Product:

The framework of the rack is made of steel sheet.

The enclosure has two cable exit holes (340x60mm 1x top section, 1x bottom section).

Front door with glued-in tempered glass and 1-point lock, mounted on hinges that allow the door to open 180 degrees.

Removable side covers with lock.

Two 19" planes of vertical mounting profiles, mounted on horizontal beams with grille, every 20mm, minimum distance from the front door 35mm (standard 65mm).

There are holes in the roof of the cabinet adapted for the installation of ventilation modules with 1 fan (for the cabinets with height of up to and including 9U, one such ventilation module may be installed; for the cabinets with height from 12U upwards, 2 such ventilation modules may be installed).

A 300mm long grounding cord.

Fixed shelf 280mm and 15 mounting screws included as standard.

The cabinets are designed for indoor use.

There are also longitudinal knockouts/cut-outs (also for screws) in the bottom and roof of the cabinets (depends on the model of the cabinet and when it was manufactured), where the EmiterNet wall cabinet brush grommet can be used.

Technical parameters:

Cabinet colour RAL 7044 (light grey - structure); Door colour RAL 7010 (dark grey - structure)

Two 19" mounting planes

Degree of protection against solids and dust and against water ingress: IP 20 (does not apply to cabinets with brush grommets installed).

Fully-assembled cabinet. The cabinets are packed in a cardboard box
