**24-port panel intended for F-type sockets, without equipment, 1U**

**Markings:**

Code: EM/P011-24F

**Description and Technical Characteristics of the Product:**

Not equipped EmitterNet panel intended for “F” / “F” type sockets (barrel connector). It is used in the construction of distribution points, contact points in networks for the distribution and transmission of TV and SAT signals (antenna systems, collective systems, etc.).

When equipped with sockets, it allows connecting or patching of coaxial (concentric) cables.

Standard 19”, 1U height, up to 24 F-type sockets can be mounted.

The metal structure ensures high rigidity of the panel.

**Markings:**

24-port panel intended for F-type sockets, without equipment, 1U; code: EM/P011-24F

**Installation method:** equip the panel with F-type sockets (code: EM/GN-F/F) in the appropriate quantity; insert the socket into the opening of the panel, put on the washer and nut, tighten all the way; fix the panel in the 19" ICT rack using mounting screws (BK/11090015)

**Compatible products:**

EM/GN-F/F Professional F-socket / F-socket adapter (female- to-female) SCETE (price per 100 pcs)

BK/11090015 Set of mounting screws (20 x M6 screw + washer + cage nut)

**Technical parameters:**

mechanical:

colour: black

dimensions (W x H x D): 482 x 44 x 8 mm

weight: 0.30 kg
