

Splice covers

Markings:

45mm splice cover; Code: EM/OSLSP45.15

60mm splice cover; Code: EM/OSLSP60.15

Description and Technical Characteristics of the Product:

The splice covers are made of heat-shrinkable material, which reduces its volume when exposed to heat. The splice thermal covers are an indispensable component for protecting fibre optic splices. They are equipped with a metal stiffening wire that prevents the cover from breaking and thus the splice will not get damaged.

Technical parameters:

Colour: transparent

Length: 45mm or 60mm

Stiffening wire diameter: 1.5mm
