
RJ45 universal shielded plug Cat.6A (8P8C)

Markings:

RJ45 universal shielded plug Cat.6A (8P8C) EM/X-ML-6F-OD-IMP

Description and Technical Characteristics of the Product:

The RJ45 plug is the basic connector for building wired computer networks in compliance with the Ethernet standard. It is used in various

kinds of telecommunications and computer equipment. The plug has 8 contacts and is designed for cables with larger diameters.

NOTE: crimping a Cat.6A/6 plug on cables with AWG23 or AWG22 diameter requires more work and skill than crimping the plug on Cat.5e cables in a similar way. Emitter recommends making cable paths using

patch panels and sockets with Krone-type connectors.

Technical parameters:

Colour: transparent (silver shielding)

Finish material: plastic

Weight: 1.5g

Shielding: yes

Mechanical parameters:

Cable size: 22 to 24 AWG

Operating temperature: -10°C to +68°C,

Humidity: 10% to 90%
