

Fibre optic coupler for 24 fibres (4 cassettes of 6 splices each)

Product description and characteristics:

EmitterNet fibre optic coupler is a complete set of equipment, designed to permanently connect the fibres of installation sections of fibre optic cables by fusion splicing and protect them from external factors. The shape and size of the coupler allows for easy arrangement of the excess fibre optic cable inside the enclosure.

The kit includes four fibre optic cassettes, each holding 6 splices.

The coupler is equipped with heat shrinkable cable openings and a crimped and screwed clamp, which seals the entire system.

Markings:

Fibre optic coupler for 24 fibres (4 cassettes of 6 splices each) code: **EM/FOSC02-24SC**

Packaging: cardboard box

Contents: coupler, fibre optic cassettes inside the enclosure, splice covers

Technical specifications:

Colour: coupler: black; cassettes: grey; fastening: silver

Material: steel / plastic

Cable openings: three with a diameter of 16mm and one with a diameter of 20mm

Dimensions (L x W x D): 310x190x170mm

Weight: 1kg
