

### Longitudinal insulation stripper

#### Product description and characteristics:

The longitudinal insulation stripper is used to cut the insulation along the length of the cable, which makes it convenient to work with optical fibres.

The tool has 5 independent notching chambers, each is equipped with a cutting blade, through which you have to pull a set length of cable. This tool is suitable for fibre optic cables of most popular diameters.

#### Markings:

Longitudinal insulation stripper; code: **EM/SI3419A**

**Packaging:** cardboard box

**Contents:** longitudinal insulation stripper

#### Technical specifications:

Colour: black

Material: plastic

Dimensions (L x W x H): 55x65x28mm

Weight: 60g
